Docket No. 98N-1265
Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular,
I OBJECT to the definition of "inordinate amount" which restricts the availability
and the right to obtain medically necessary compounded medications by limiting
the number of prescriptions that can be shipped across state lines from specialized
compounding pharmacies.

COMMENTS: When my doctor took me off natural estrogen and put me
on synthetic estrogen it was a disaster. Later, he learned
that he could obtain natural estrogen for me thru Women's Health
America in Wisconsin. I certainly don't need some new
regulation from Washington preventing me from obtaining
a medication I need for my health.
